Our Objectives

At Buller Court, not only do we aim to make a positive place to call home, but we also strive to create a safe environment where people can thrive.

Our objectives are:

- To promote independence and personal development for each individual
- To develop relationships within the community and to encourage tenants to take a fulfilling role in society
- To support people in their personal aspirations and encourage new experiences and achievements
- To support people to have control of their lives and to enable them to make informed choices
- To provide the support to enable people to be as independent as possible in all areas of their lives
- To ensure personal care is carried out with dignity and respect and is individually tailored to meet the needs of the individual
- To promote a fun and fulfilled life, ensuring people are encouraged to express their wishes on what they want to achieve so we can work in partnership to reach this goal
- To ensure the rights of people are upheld and to ensure no one suffers any forms of discrimination

These are our aims, and although our team is skilled, experienced, trained, and dedicated we encourage you to let us know if you ever feel like we've missed the mark.

Buller Court isn't a place where we tell you how to live; it's a place where we work together to help you to live the life you want.
